

JYOTHILAL REJI

Full Stack Developer · Data Science · Machine Learning

Kerala, India · Working with clients worldwide | jyothilalreji@gmail.com | github.com/jyothilalreji | linkedin.com/in/jyothilal-reji

SUMMARY

Computer applications graduate building complete digital products — realtime web and mobile applications, machine-learning pipelines and business-facing websites. Experience spans data science and ML model development (Python, Scikit-learn, Power BI) through full-stack product development (React, TypeScript, Supabase, Capacitor), including a delivered client website for a UAE business.

SKILLS

Languages	Python, SQL, JavaScript, TypeScript, PHP
Web & Mobile	React, HTML, CSS, Django, Tailwind CSS, Supabase, Capacitor
Data / ML	Pandas, NumPy, Scikit-learn, TensorFlow, Keras, Random Forest, SVM, KNN, Neural Networks
Visualization	Power BI, Matplotlib, Seaborn
Tools	Git, AWS, Jupyter, Google Colab, MySQL, WAMP

EXPERIENCE

Data Science Intern — Luminar Technolab, Kochi, Ernakulam

May 2024 – Present

- Developed and evaluated machine-learning models, improving prediction accuracy by 30%.
- Automated data preprocessing pipelines, reducing cleaning time by 15%.
- Built Power BI dashboards that improved decision-making efficiency by 20%.
- Contributed to data analysis and web application optimisation.

PROJECTS

Quicky — Gamified social connection platform (React, TypeScript, Supabase, Capacitor)

- Realtime multiplayer platform with rooms, chat, friends, coins, gifts, themes and an admin console.
- Includes Spin the Bottle (12-player rooms) and multiplayer Ludo with server-authoritative dice.

OT24.AE — Live business website for a UAE client (HTML, CSS, JavaScript)

- Complete digital presence designed, built and delivered end-to-end; live at ot24.ae.

Wind Quality Prediction — ML system (Python, Scikit-learn, Pandas)

- Random Forest and SVM classifiers achieving 85%+ accuracy; reduced prediction error by 15%.

Online Shoe Store — E-commerce (Django, Python, MySQL)

- Transactional order and inventory management supporting 50+ daily transactions across 50+ products.

Doctor Appointment Booking — Web application (PHP, MySQL, JavaScript)

- Online booking with doctor schedules, slot integrity enforced at the database level.

EDUCATION

Bachelor of Computer Applications (BCA) — Mar Augusthinose College, Ramapuram

June 2021 – March 2024 · CGPA 7.46 / 10

CERTIFICATIONS

- Data Science Foundations — Great Learning
- Data Visualisation With Power BI — Great Learning

LANGUAGES

English (Fluent) · Malayalam (Native)
